

Monday Seminar
Lecture hall 35F32, 12:30pm

HS 2016

Date	Speaker	Title of seminar
19 September 2016 Host: Urs Gerber	Nicolas Toni Université de Lausanne, CH	Astrocytes promote the synaptic integration of new neurons in the adult hippocampus
26 September 2016 Host: F. Helmchen	Carl Petersen EPFL Lausanne, CH	Neural circuits for goal-directed sensorimotor processing
3 October 2016 Host: I. Mansuy	Maurizio Meloni University of Sheffield, GB	Plasticity of the brain, plasticity of the genome: Some Social and Ethical Implications
10 October 2016 Host: S. Jessberger	Ana Martin-Villalba DKFZ, DE	Interrogating stem cell heterogeneity in the adult and aged brain
17 October 2016 Host: C. Földy	Peter Scheiffele Biozentrum Universität Basel, CH	Alternative splicing programs for synapse specification and neuronal plasticity
24 October 2016 Host: F. Helmchen	Thomas Euler Universitätsklinikum Tübingen, DE	What the mouse's eye tells the mouse's brain: Functional diversity in the retina
31 October 2016 Host: M. Schwab	Afsaneh Gaillard Université de Poitiers, FR	Rewiring the injured brain with cell transplantation
7 November 2016 Host: Theo Karayannis	Alessandra Pierani Université Paris Diderot, FR	Transient moving organizers: life and death in cortical development and evolution
21 November 2016 Host: T. Karayannis	Michele Studer University of Nice Sophia Antipolis	Molecular mechanisms underlying area-specific circuit formation in the developing mouse neocortex
28 November 2016 Host: M. Schwab	Simon Hippenmeyer IST Austria, AT	Molecular Mechanisms of Neural Stem Cell Lineage Progression
5 December 2016 Host: C. Földy	Benjamin Cooper Max Planck Institute, Göttingen, DE	Morphological and molecular correlates of vesicle priming in neurosecretory cells
12 December 2016 Host: I. Mansuy	Deborah Bourc'his Institut Marie Curie, FR	Early epigenetic programming of post-natal growth
19 December 2016 Host: S. Jessberger	Barbara Treutlein Max Planck Institute, Leipzig; DE	tba
