

Monday Seminar
Lecture hall 35F32, 12:30pm

FS2014

Date	Speaker	Title of seminar
17 February 2014 Host: S. Jessberger	Magdalena Götz Helmholtz-Zentrum Munich / LMU, D	Molecular and cellular mechanisms regulating neurogenesis
24 February 2014 Host: S. Jessberger	Janos Szabadics KOKI, Budapest, HU	What makes dentate gyrus granule cells unique among principal neurons?
3 March 2014 Host: A. Guzik	Siegrid Löwel Universität Göttingen, D	The dynamic architecture of the adult visual cortex: age-dependent plasticity and recovery from lesions
10 March 2014 Host: F. Helmchen	Christian Lohmann Netherlands Institute for Neuroscience, Amsterdam, NL	How spontaneous activity wires the developing brain prior to experience
17 March 2014 Host: M. Schwab	Giampietro Schiavo University College London, UK	Axonal signalling endosomes: trafficking, sorting and disease
24 March 2014 Host: I. Mansuy	Edna Grünblatt University Clinic for Child and Adolescent Psychiatry, UZH, CH	Implication of serotonergic transmission in brain development, obsessive-compulsive disorder and psychopharmacology
31 March 2014 Host: I. Mansuy	Angel Barco Neuroscience Institute, Universidad Miguel Hernandez, Alicante, ES	Epigenetic mechanisms in neuronal plasticity and neurological disorders
07 April 2014 Host: I. Mansuy	Edward Mann Oxford University, UK	Circuit mechanisms and functions of cortical gamma-frequency oscillations
14 April 2014 Host: F. Helmchen	Gilles Laurent MPI Brain Research, Frankfurt, D	Explorations of a reptilian visual cortex
29 April 2014, Tuesd Host: O. Raineteau	Afsaneh Gaillard CANCELLED Université de Poitiers, F	Cell therapy for brain disorders
5 May 2014 Host: U. Gerber	Jean-Christophe Ponce INSERM Institut du Fer à Moulin, Paris, F	Ion transport and synaptic function in cortical neurons
12 May 2014 Host: M. Schwab	Oren Schuldiner Weizmann Institute, Rehovot, IL	Mechanisms of axonal growth and pruning
19 May 2014 Host: S. Jessberger	Hongjun Song Johns Hopkins, Baltimore, USA	Circuitry mechanisms regulating adult neural stem cells and neurogenesis
26 May 2014 Host: F. Helmchen	Rui Costa Porto, POR	Generating and shaping novel action repertoires
